

iRecycle Regatta – A Madisonville 4thFest Event

The objective of the race is to design and build a two person–powered floatation device.

At least 70% of the materials used to build the watercraft must come from the waste stream (things that would normally be put in the recycling bin or trash). The remaining 30% of the materials can be new (tape, etc.).

The race will take place at the Madisonville City Park swimming pool on Tuesday, July 4, 2017.

Registration begins at 8:30 AM and race begins at 9 AM. Based on enrollment, we will use the Double Elimination process for the race.

Rules:

1. Only two (2) people per floatation device allowed. Four people per team.
2. Qualifying watercraft can be no larger than 6' x 12'.
3. The watercraft must be propelled by human power. This may include oars or pedals, but no motors. Crew member must power their boat from inside or on top of the craft. No pushing or pulling. Swimming is not acceptable propulsion.
4. Your choices are as wide as your imagination, but glass, kegs, wood, Styrofoam, scrap metal or anything toxic is not allowed. Old floatation devices may not be used to construct your watercraft. For instance, an old surfboard or boogie board cannot be used as the base for your recycled boat.
5. If the body of the boat sinks completely below the surface of the pool, the participant will be disqualified.
6. Each crew member must propel his/her watercraft across the pool two (2) times. The fastest time wins.
7. Everyone participating in this race must sign a liability waiver.
8. No entry fee to participate.

The iRecycle Regatta applications may be submitted in advance of the race to scrick@madisonvillegov.com or mailed to The City of Madisonville, PO Box 705, Madisonville, KY 42431 by June 23, 2017. For more info, please call 270–824–2100.

Winning Team Takes Home – \$250 Cash Prize, \$500 Donation to Charity of Choice, Trophy
